

YORK

MODULAR SYSTEM

The Modular System comprises the YORK barbecue and two optional side tables, which allow different combinations. The structure is made of marble granulate Bianco Carrara and the worktops are in Rosa Asiago with CRYSTAL polished finish.

The barbecue is supplied with a NO FLAME stainless steel grill for fat-free grilling; designed with placement for a spit. One of the optional side tables has an integrated gas cooking unit complete with cast-iron grill plate and the other side table is an extra worktop.

Easy assembly with Sunday BETONFAST glue, available separately as an accessory.

The barbecue can be used with charcoal and wood; gas grilling possible thanks to the DUO system.
